About This Game

An irresistible force has taken our fearless frog to an island where the ribbeting puzzle-action of Zuma has evolved in amazing ways... but evil spirits and tenacious tiki bosses rule the land!

Survive the ire of the island by firing stone spheres to destroy the deadly stream of balls. Conquer over 60 levels by staying sharp and avoiding hidden traps. Slide and hop for smarter shots; hit targets for exotic bonuses; detonate new power-up balls; battle six imposing tiki bosses and guide your agile amphibian to victory in four all new game modes! Will you succumb to the perilous pitfalls, or can you tame the jungle in this PopCap ball-blasting challenge?

- Conquer over 60 levels and defeat six mini-game Boss Battles
- Score explosive power-ups including three new shots
- Explore new gameplay like lily-pad hopping, slide-aiming, and more
- Take a shot at 70 all-new Challenges in the Jungle of Mystery, Quiet Village, Lost City and Mosquito Coast.
- Run the Iron Frog gauntlet — beat 10 levels in a row!
- Turn up the heat in Heroic Frog mode
- Enjoy amazing graphics and effects that bring Zuma into the modern world of gaming

Multiplayer is dead, brothers. The story is sheer violent, satisfying, sweet bolter/vmelee porn. If you remember Golden Axe, then it is enough to say that Dungeons: The Eye of Draconus is a clone of that game with over the top violence and hit&miss humor.

If you have not haerd of Golden Axe, Dungeons: The Eye of Draconus is a 2D fantasy brawler in which you control a character and slaughter waves of enemies before moving on to next stage and repeating this activity. It can be played in single player or local co-op (not sure if online co-op is available), up to three players, which is probably the most enjoyable way.

What this game has, and Golden Axe did not, is lots and lots of blood and nerdy humour type jokes (wacky voice acting / fighter named Bolax / mage's special attack summons a giant fire-breathing chicken mount / orc frat boys / gay zombies / etc.), which may or may not work for you.

The game is quite challenging, although you get unlimited continues (at least on normal difficulty), so the challenge lies mostly in getting the achievements. I died a lot, and only got 2 of 12 in the end. Curiously, the first boss was the hardest for me.

Note that The Eye of Draconus game is approximately 1 hour in length, so getting it at a discount or in a bundle is about the only way to get your money's worth. Might be worth a playthrough, if you enjoy slaughtering kobold children.

I would give this game a neutral rating, if I could, but since Steam only allows me to recommend the game or not, I am going with not - because it is too short for its normal price.. Avadon is a good game so far as role-playing gamers are concerned. It follows the style of Baldur's Gate and other isometric RPGs. It is nothing along the lines of modern, 3D graphics powered games, but is a good experience to pass the time.

You have everything from your warrior-mage-thief classes to different items to equip and lots of monsters to fight. The story, in text form, is also quite interesting in the beginning, although I haven't gone far ahead in the game to comment about it in its entirety.

If you want a good RPG to pass the time, Avadon is a good game. God bless.. It's ok, but it becomes repetitive quite fast. Maybe

it would be better on a mobile phone, but that's just my opinion. The price is fair and it also has trading cards. Give it a try, maybe you'll like it more than I did.. Very pure control navigation, have not possible to rotate. Disable ico preview for furniture and tools. Pure graphic. Empty town view from windows. My images dont work (App try to find User\User folder

Cashgrab, devs disappeared, games still here on shop, keep report this trash. <https://www.youtube.com/watch?v=Vlee5pDTmBs>. Okay. so the premise is basically a viking/celt epic fantasy adventure.... with poker for the combat. sounds friggin stupid right? its weirdly fun though. there's some good strategy, a fairly compelling story, great music, and all around... its a really nice chill game. give it a shot!. This DLC is based on a famous mission from THEIF II the metal age it provides and extra hour or so of stuff to do but i would reccomend you buy it when its on sale its not worth it at full price -much like the normal game-. It is a great game--beautifully written and made. I loved it in every shape and form. The game is very promising, and if you're one for multiple-endings, this is the type of game for you.

. without season pass game looks like wwe 2k16.5 season pass make it 2k17. I think you need drugs to enjoy this game.

Rate 5V10. I don't have drugs.. Within the top 3 best TWs of all time, and easily the most polished historical title since Shogun 2. The campaign mechanics, graphics, and the attention to detail is second to none within the TW franchise.

The game is very, very well optimized. I have been running the game on a five year old PC, and it was honestly shocking how well I was able to run the game, even on extreme unit sizes. Run the game using the Romance color filter, it's better.

The AI can still be goofy during battles, especially sieges, but overall the AI has been better at attacking as a group in land battles. The campaign AI is unforgiving unless you play it carefully (VHV/VH). Was playing as Dong Zhuo and I had a half dozen full stacks charging right down my throat. It was probably the most hectic and exciting campaign I have played since my time playing as Hattori in Shogun 2.

I haven't encountered any bugs as of yet. I haven't had any crashes. No matter what you think of China, CA, or the Three Kingdoms period; CA deserves praise for this release.

8.5V10 at the very least.. I looked I hoped now I have this game

This is not what i hoped for but i looked so i passed on this curse std what ever you want to call it to like 3 people they all have terminal seven now and my parents disowned me

Most best thing ever welp later
